

The Ultimate Sneeze Guards

We can help you achieve social distancing in style. Our premium quality sneeze guards are designed to be a permanent and long-lasting addition to any space, providing safety with minimal effect on your decor.

ABOUT

Protecting
People is Our
Mission

NGS Sneeze Guards is a division of NGS films+graphics. We have been in the security glass and window film business for over 30 years, specializing in anodized aluminum extrusions and premium glazing products. We are committed to making durable, long-lasting products out of high-quality aluminum, glass, films, acrylics, and polycarbonates. Our designs are as beautiful as they are functional, and we are driven by the satisfaction of our highly valued clientele.

Safety & Security

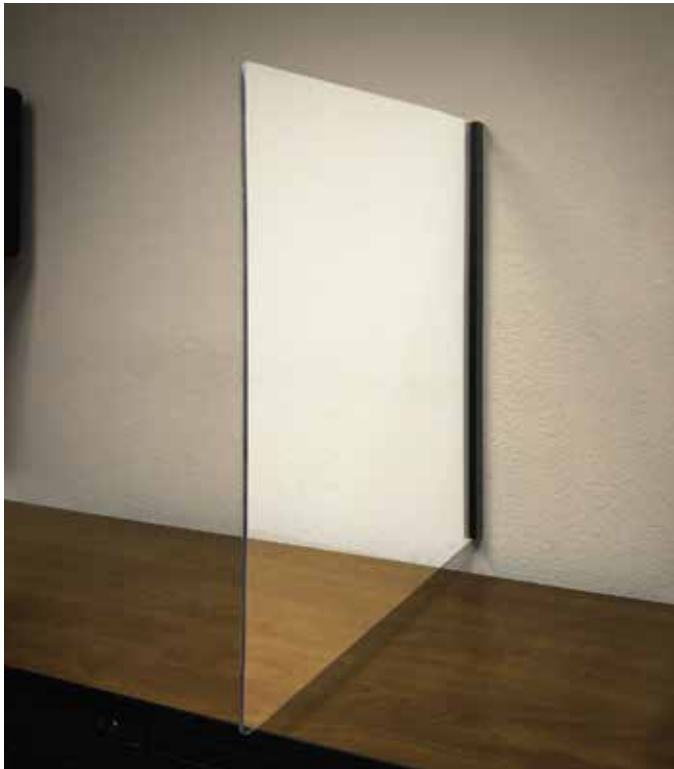

SAFETY PRODUCTS	PREVENTION OF INFECTIOUS DISEASES
SECURE AND PROTECT	ANTI-INTRUSION PRODUCTS
QUALITY	DURABILITY IS OUR HALLMARK
VERSATILITY	CUSTOM MADE-TO-ORDER AVAILABLE

Being close while being safe.

SOCIAL DISTANCING 101

We set out to make the finest, longest lasting, permanent sneeze guards available, with the smallest possible footprint. You don't need to sacrifice valuable counter or desktop space to achieve social distancing.

Our Full-Frame model can be mounted on a wall or any flat horizontal surface. Our Surface-Mount model is designed to be mounted on the vertical surface of any counter, desk, or table.

Both models are made of heavy grade anodized aluminum and available in dark bronze or silver.

NGS Sneeze Guards offer durability in a modern slimline design.

Originally developed during the COVID-19 crisis as a social distancing barrier, our easy to install, versatile sneeze guards have a very small footprint, taking up very little space on your counter, desk, or table and can be used as a year-round barrier to protect against common colds and seasonal flu viruses.

—

Durability is our hallmark.
Our sneeze guards are made with a long-lasting anodized aluminum base that permanently mounts to any horizontal or vertical surface.

Our abrasion resistant coating protects the panel for added durability, even with very regular cleaning.

Available in crystal-clear acrylic, or for improved impact resistance, our FDA approved polycarbonate panels.

Signature Series

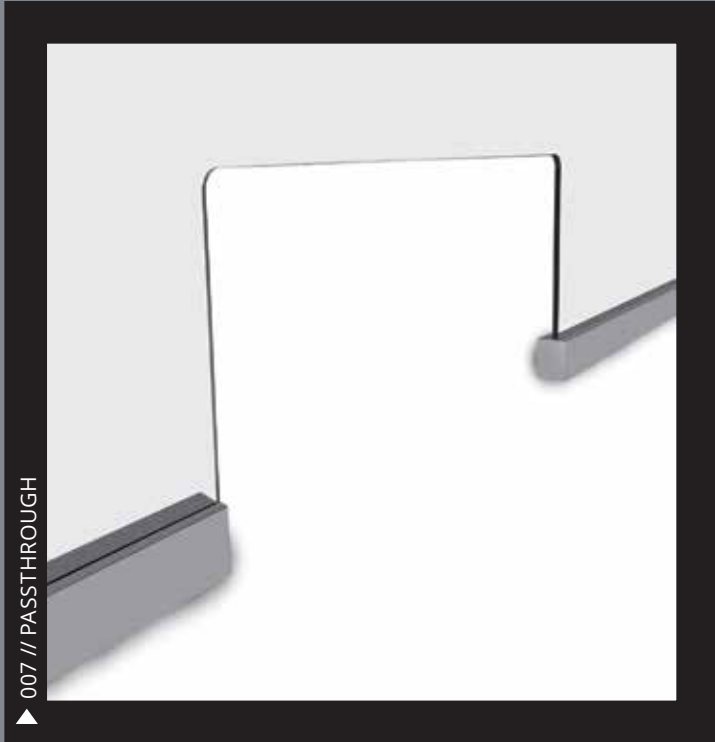

QUALITY

Whether you are mounting to a wall, desktop, countertop, or the vertical surface of a piece of furniture, we have a model for you.

The passthrough window option allows you to slide paperwork, payments, or merchandise through to a person on the other side of the sneeze guard.

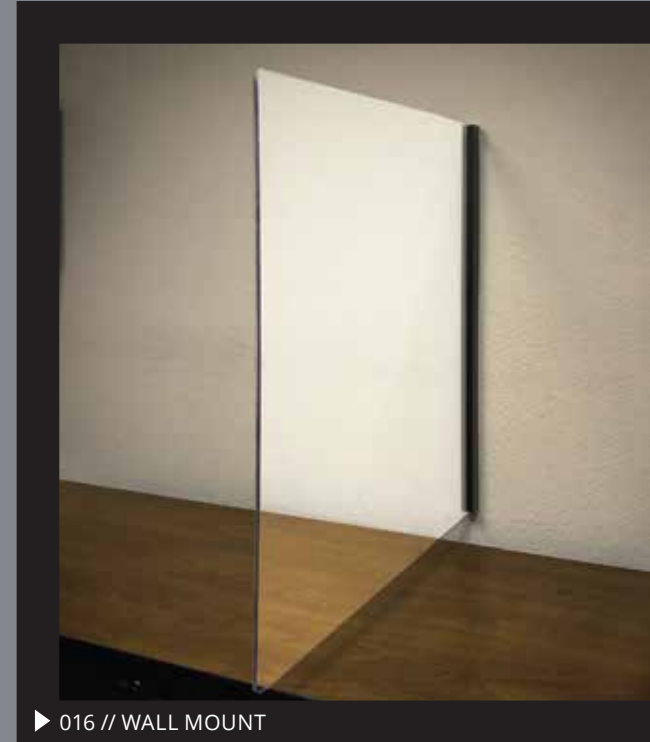

▶ 007 // PASSTHROUGH

▶ 008 // SURFACE MOUNT

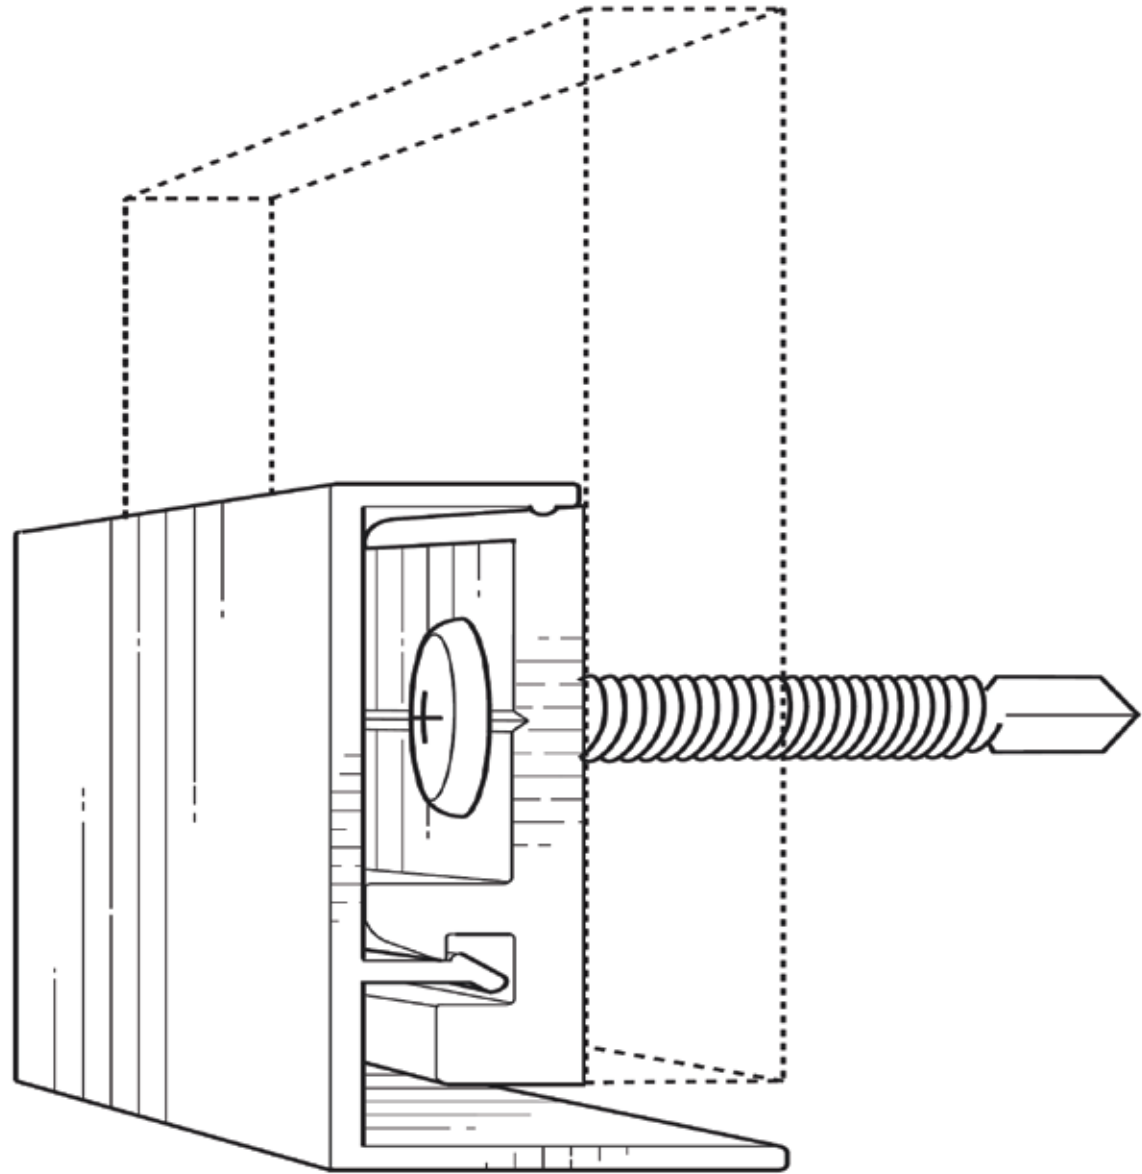

▶ 016 // WALL MOUNT

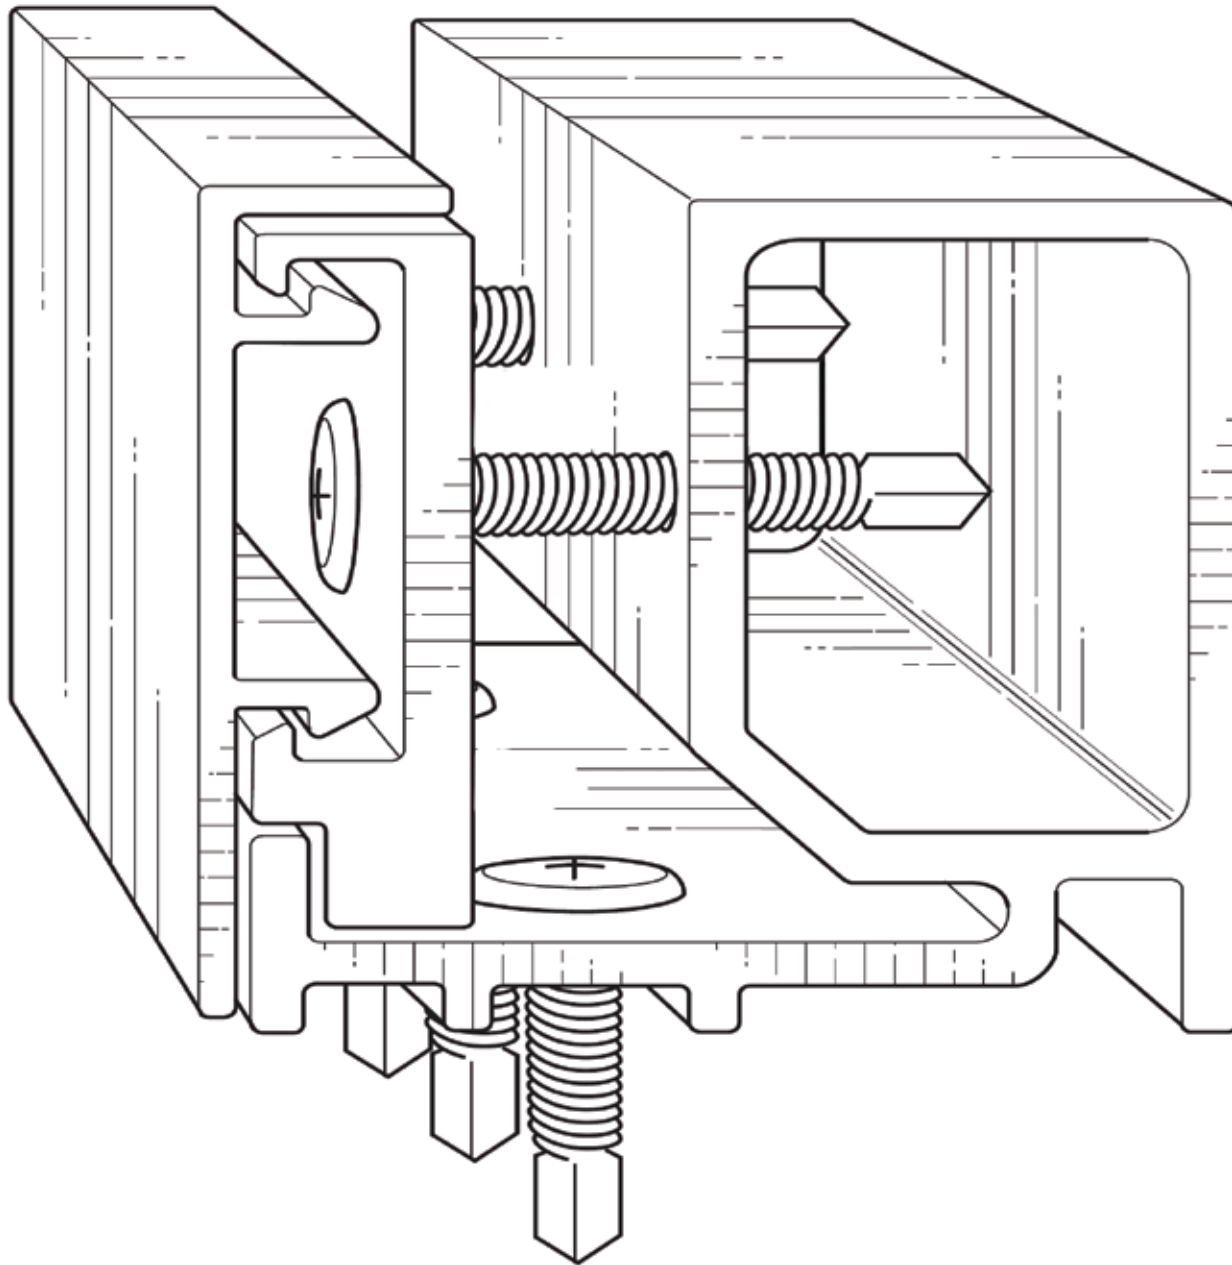

Mounting Options Include our Full Frame and Surface Mount Configurations

All of our framing systems come with support wedge with pre-drilled holes and a "V" groove that acts as a drill guide for optional additional fastener positioning. You can use screws or bolts depending on your mounting needs.

The decorative cap snaps onto the support wedge to cover the screwheads providing a clean, refined, and finished look.
